King's Suite

Whether set up to seat 1,600 theatre style or split into two rooms, our King's Suite is one of London's finest conference spaces. Linked to the identically-sized Monarch Suite directly below, it offers organisers an unprecedented level of flexibility.

Back projection plus state-of-the-art sound and lighting technology make this uniquely equal to the Monarch Suite. A staircase carries delegates between the two suites. A heavy goods lift can carry up to 8,000kg at a time to either suite from street level, with ease.
